

Product Name : Traffic Light Control PLC Application Modules for Instrumentation Electric Labs	Product Code : ITT-TR-21
---	------------------------------------

Description :

Traffic Light Control PLC Application Modules - Traffic Light Control PLC Application Modules - Traffic light control

enables students and practicing engineers to gain invaluable practical experience of the principles and application of programmable logic controllers. The object is to connect and program an external programmable logic controller to monitor and control the traffic light system. Traffic light controlling is shown with the help of LEDs. The apparatus is connected with output of PLC. Four way traffic is automatically controlled by PLC roads which meeting at a circle

User friendly and powerful instruction sets.

Ready to use application board.

Exhaustive learning material

Address: 6148/6, Guru Nanak Marg, Ambala Cantt, Haryana, India, **Phone:** +91-0171-2643080, 2601773
