

Product Name : Transformer	Product Code : Physics Lab0004
	
Description :	
Transformer	
We are Leading Supplier of Transformer in India. We also bulk supply Transformer for laboratory tensors.	
Features :	
ONAN cooled, Outdoor type, Oil immersed cooper wound, Open type with conservator	
Performance :	
Ensure Performance Reliability :	
Automated, state of the art manufacturing process with core design	
Short circuit proof, use of epoxy dotted paper & curing coils in a special press	

Long life special process of oil filling under vacuum ensures void free core coil assembly

Leak proof 100% Transformer tested for Oil leakage

Ensure Performance Efficiency With Minimum Losses :

Use of best -in -class materials, Core made from prime grade imported CRGO

Advanced technology wound core design with single coil windings & step lap core

construction

Low magnetizing current

Low no load & Load losses

Low noise levels

Specifications :

Oil capacity : 360 L

Rated Primary Voltage : 11KV

Secondary Voltage : 416 V

No-Load Losses : 750 W

Load Losses at 75°C : 4500 W

Impotence at 75°C : 4%

Efficiency at 100°C load : 98.33% (P.F.-1) & 97.92% (P.F.-0.8)

Noise level : 50 ~ 55 d

Off load tapping switch & pressure valve for all Transformer

Oil conservator with magnetic oil gauge & silica gel

breather for conventional free breathin transformer

Thermometer for all transformers

Lifting lugs for tanks, cover & active part

Earthing terminal on bottom of the tank
