Description :

Turbo Diesel Engine, 16 Valve Chrysler Jeep

This cut-away is an electronically operated 16-valve Chrysler Jeep Dodge turbo diesel engine with common-rail intercooler mounted on a stand with wheels. Using this cut-away allows you to:

- Use its reduced speed operation to teach about all of the moving mechanical parts.
- Point to each of its carefully sectioned parts to train your students.
- Easily differentiate between the color-coded cross-sections, cooling system, lubricating circuits, fuel system, etc.
- Expect a longer life for the cut-away because of the many chromium plated and galvanized parts.
