

Product Name :

Turbo Diesel Truck Engine, Inline 4, without Turbosupercharger

Product Code :

TechnicalLab0468

Description :

Turbo Diesel Truck Engine, Inline 4, without Turbosupercharger

This cut-away is a “Fiat” turbo diesel engine used in cars and cargo trucks with a 4-cylinder inline configuration and indirect injection, but without a turbosupercharger. The cut-away is mounted on a sturdy stand with wheels and allows you to:

- Observe the electronically powered engine move at a reduced speed for easy comprehension.
- Describe each of the parts, which have been carefully sectioned for training purposes.
- Educate about all separately painted mechanical segments, cross-sections, lubricating circuits, fuel system, cooling system, etc.
- Expect a longer life for the cut-away due to the many chromium plated and galvanized parts.

SPECIFICATIONS:

- 4 stroke engine; Inline 4 cylinder
- Displacement: 2,500 cc
- Indirect injection

- VE Bosch type rotary injection pump
- Overhead camshaft (OHC)
- Distribution through a toothed belt
- Alternator
- Thermostatic valve
- Gearbox: 5 forward speeds + reverse
- Water cooling
- Operates electrically at 120 volts
- Mounted on stand with wheels
- Compliance: CE Mark
