Product Name : Turbo Diesel Truck Engine, Inline 4, without Turbosupercharger	Product Code : TechnicalLab0468
Description :	
Turbo Diesel Truck Engine, Inline 4, without Turbosupercharger	
This cut-away is a "Fiat" turbo diesel engine used in cars and cargo trucks with a 4-cylinder inline configuration and indirect injection, but without a turbosupercharger. The cut-away is mounted on a sturdy stand with wheels and allows you to:	
Observe the electronically powered engine move at a reduced speed for e	easy comprehension.
Describe each of the parts, which have been carefully sectioned for training	ng purposes.
• Educate about all separately painted mechanical segments, cross-section cooling system, etc.	s, lubricating circuits, fuel system,
Expect a longer life for the cut-away due to the many chromium plated and	d galvanized parts.
SPECIFICATIONS:	
• 4 stroke engine; Inline 4 cylinder	
• Displacement: 2,500 cc	
• Indirect injection
