

Product Name :

Turbo Diesel Truck Engine, Inline 6, with Intercooler

Product Code :

TechnicalLab0477

Description :

Turbo Diesel Truck Engine, Inline 6, with Intercooler

This product is an electronically controlled cut-away of a turbo diesel truck engine with an inline 6- cylinder configuration, direct injection, and intercooler. Use of this cut-away will allow you to:

- Use at a reduced operating speed to teach about all of the moving mechanical parts.
- Point to each of its carefully sectioned parts to train your students.
- Easily differentiate between the color-coded cross-sections, lubricating system, cooling system, fuel system, etc.
- Easily display and move the cut-away thanks to its sturdy stand and wheels.

SPECIFICATIONS:

- 4 stroke engine; Inline 6 cylinder
- Displacement: 5,200cc
- Direct injection
- Bosch type in-line injection pump with mechanical governor

- Air/air Intercooler
- Camshaft in the crankcase
- Spring single-plate clutch
- Turbocharged
- Gearbox: 4 forward speeds + reverse
- Gear distribution
- Operates electrically at 120 volts
- Mounted on stand with wheels
