

Product Name :

Turbo Diesel Truck Engine With Direct Fuel Injection

Product Code :

TechnicalLab0475

Description :

Turbo Diesel Truck Engine With Direct Fuel Injection

This product is a cut-away of a turbo diesel, 4-cylinder engine with in-line configuration and direct fuel injection with moving mechanical parts. This type of engine is used in cars or cargo trucks and allows you to:

- Teach about the engine while it moves electronically at a reduced speed.
- Effortlessly display and move the cut-away thanks to its sturdy stand and wheels.
- Expect a longer life for the cut-away because many of the parts have been chromium plated and galvanized.
- Easily describe each of the parts, which have been carefully sectioned for training purposes and painted for easy differentiation between the mechanical parts, cross-sections, lubricating circuits, fuel system, cooling system, etc.

SPECIFICATIONS:

- 4 stroke engine; In-line 4 cylinder
- Displacement: 2,500cc
- Direct injection

- Turbocharged
- VE Bosch type rotary injection pump
- Overhead camshaft (OHC)
- Distribution through a toothed belt
- Alternator
- Thermostatic valve
- Intercooler water-oil
- Water cooling
- Operates electrically at 120 volts
- Mounted on stand with wheels
