**Product Name:** 

**Unconfined Compression Test Machine** 

**Product Code:** 

Civil Engineering0030

## **Description:**

**Unconfined Compression Test Machine** 

We are Leading Supplier of Unconfined Compression Test Machine in India. We also bulk supply Unconfined Compression Test Machine for laboratory tensers.

**Unconfined Compression Test Machine** 

## Features:

The electric strain unconfined compression tester is used to determine un-confined compression strength of cohesive and semi-cohesive soils. The test is used to supply information needed for the design and construction of civil engineering structures.

Technical Specifications of the Electric Strain Unconfined Compression Tester

Phone: +91-0171-2643080, 2601773 Email: sales@naugraexport.com

Lift plate journey per revolution of the wheel: 0.2 mm

stroke of the lift plate : 30 mm Lifting speed : 1.8mm/min ±15%

axial load: 0.6 KN

Diameter of the cylinder: Ф39.1
