

Product Name :

Wankel Engine Model, Cutaways Models for engineering schools

Product Code :

TTSS-NE-0008

**Description :**

Wankel Engine Model, Cutaways Models for engineering schools

Technical Specification :

Rotating engine model, technical teaching equipment for engineering

true to the original and complete with cutaway carburettor. The rotor (triangular piston), operated by the driving shaft, rotates inside the stator thus clearly showing the different phases.

During the compression phase a small bulb lights up to simulate the petrol ignition. Light metal construction.
