

Product Name :
Water Content Analyzer India

Product Code :
NG478

Description :

Water Content Analyzer India

Technical Specification :

- Halogen Heater
- Long-life and high power halogen heater provides quick and accurate measurement.
- The temperature can be changed from 50 degrees to 200 degree Celsius.
- You can check sample status from window while measurement.
- Data management and easy operation
- Built-in USB port
- UniBloc technology
- The measure results can be transferred by USB cable.
- If connect with PC by USB, needs USB driver.
- Easy operation using a simple keypad

- Features easy-to-operate software and keypad layout. In addition, an automatic starting mode saves measurement time, increasing your work efficiency.
- Operation simply requires 'putting material on the pan and shutting the cover'. Internal memory can save 10 measurement conditions and 100 results.
- Various measurement modes provide extra support.
- Timed ending mode
- Automatically ends measurement when the specified amount of time has elapsed.

Description:

- Water Content analyzer
- Capacity: Min. 0.02g and Max. 60g
- Minimum readability: 0.001g
- Repeatability: 0.1 5% (2g), 0.05g (5 g), 0.02% (10g)
- The temperature on the pan can be set between: 50°C and 200°C (1 °C increments)
- Timer setting: 1-129 minutes or continuous (Max 12 hours)
- Sample Pan Size diameter: 95 mm
- Drying heater: Straight type halogen heater
- Display: LCD with back light
- Approximate Dimension (W x D x H): 202 x 336 x 157 mm
- Weight: 4kg ± 1 0%
- Operational temperature and humidity range: 5 to 40 °C, 85% RH or lower
- Equipped with the UniBloc aluminum block, to provide accurate moisture measurements: YES
- Equipped with a high output halogen heater capable of rapid heating: Yes
