

Product Name :

Water Level Measurement Trainer for Instrumentation Electric Labs

Product Code :

ITT-TR-14

**Description :**

Water Level Measurement Trainer - Water Level Measurement Trainer - ITT-TR-14 compact and user friendly learning platforms to provide a modern, portable, comprehensive and practical way to learn Technology. Each TechBook is provided with detailed Multimedia learning material which covers basic theory, step by step procedure to conduct the experiment and other useful information. Scientech

Water Level Measurement is designed to learn concept of Water Level Measurement. It helps students & industry professionals to understand operation of level sensors in detail. Built-in On/Off Controller is also provided with audio & visual indicators. It also has a PC interface through USB for more interactive understanding of Water Level Measurement. User can also take a direct printout if desired. Scientech 2309 Water Level Measurement has a wide range of experiments with user friendly software.

Capacitive Transducer

Precise Signal conditioning

Self-contained and easy to operate

Data acquisition using USB

Sensitive, Linear, Stable & Accurate

Functional blocks indicated on board mimic

On board Digital Voltmeter

On board Indicators; Buzzer & LED

On board On/Off Controller

Graphical representation

User friendly software

On Board Touch Switch
